

REMARKS

In response the Communication dated August 9, 2005, Applicants have amended the specification as shown above to indicate the appropriate Sequence Identifier for the sequence on page 10, line 15. No new CRF or paper copy of the Sequence Listing is required because no new sequences have been added by this amendment. Applicants note that the sequences in the specification, for example on page 17, line 9; page 21, line 5; page 45, line 26; and page 51, line 11, do not require sequence identifiers as they contain less than 10 specified base pairs.

Therefore, entry of the foregoing amendment and examination of the application are requested.

Respectfully submitted,

Date: August 17, 2005
